

I was shocked to find my child watching an UNEDITED virsion of Saving Private Ryan during primetime television on our ABC channel 10 last night and this movie was filled with fowel language. I hope you fine every single one of them. They know the rules on PUBLIC airwaves! They are to be fined for every time they cussed. Now my child is repeating what he heard on TV. Hes too young to be talking like this. I expect you to fix this problem immediatly!
